

CLOUD-BASED *3D RENDERING*

AVAILABLE FOR *ACADEMIA*

PROVIDED BY:

SUMMUS
RENDER

WHY OUTSOURCING 3D RENDERING? - 8 SIMPLE REASONS

Avoid unnecessary upfront costs
such as hardware and network setups

Save \$ on energy consumption,
software licenses and maintenance expenses

Free yourself from idle hardware
that in time becomes obsolete

Pay for the required amount of render hours
and control your operational budget

Students can render their projects
in a professional and customizable environment

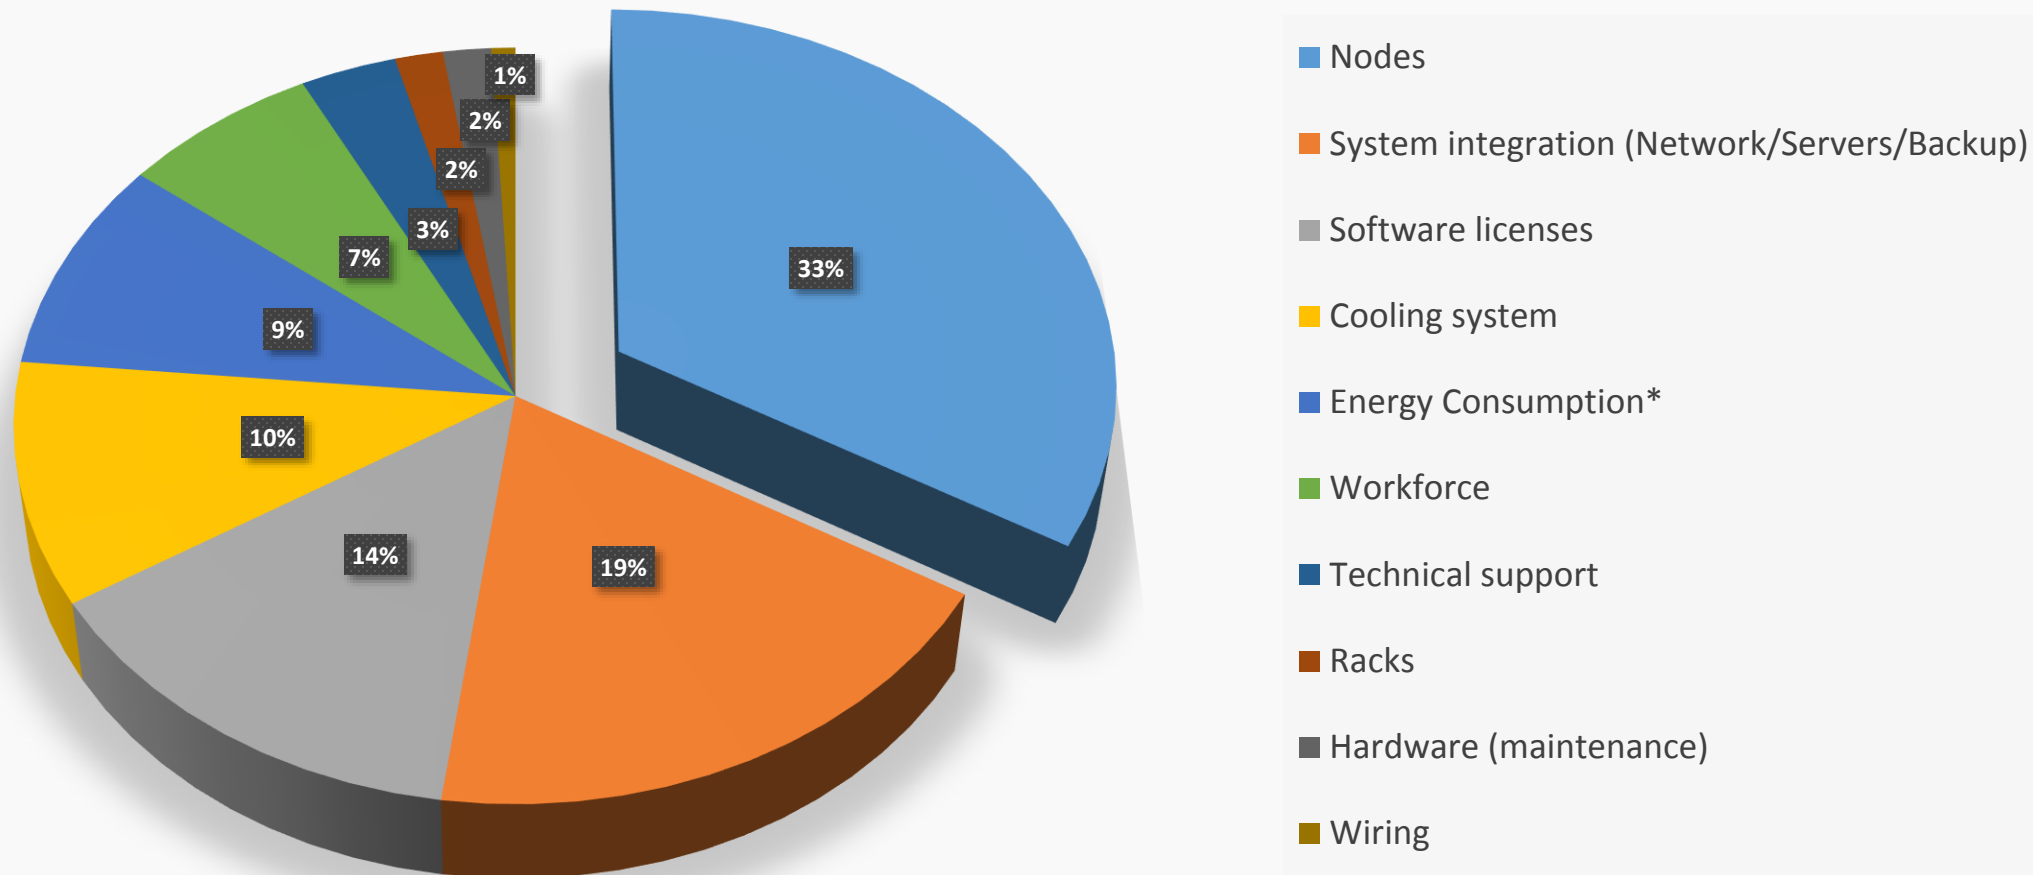

Workload spikes can be avoided;
no more excuses for missing a deadline

Vast server capacity means
significantly faster 3D render

You can be invoiced,
making it tax-deductible*

*Subject to each country's Tax policy.

Percentile 3D Rendering Cost Break-up (prorated after 1 computational node)^a

^aScenario: 25,000 hours of render (30 FPS), attained through 15 HPI7 render nodes.

*50% annual effective usage

AS YOU CAN SEE,
OTHER COSTS APART FROM HARDWARE COME INTO PLAY . . .

. . . TO TACKLE THIS SUMMUS RENDER OFFERS:

CLOUD-BASED RENDERING

Through our online render system SUMMUS APP, students can manage their projects in real time.

24/7 AVAILABILITY

Unlimited access to render nodes.

VERSATILITY

Power can be shared among active projects, reducing even further your students' render time.

UNBEATABLE PRICE AND QUALITY

Take advantage of our volume discounts. Get in touch for an RFP.

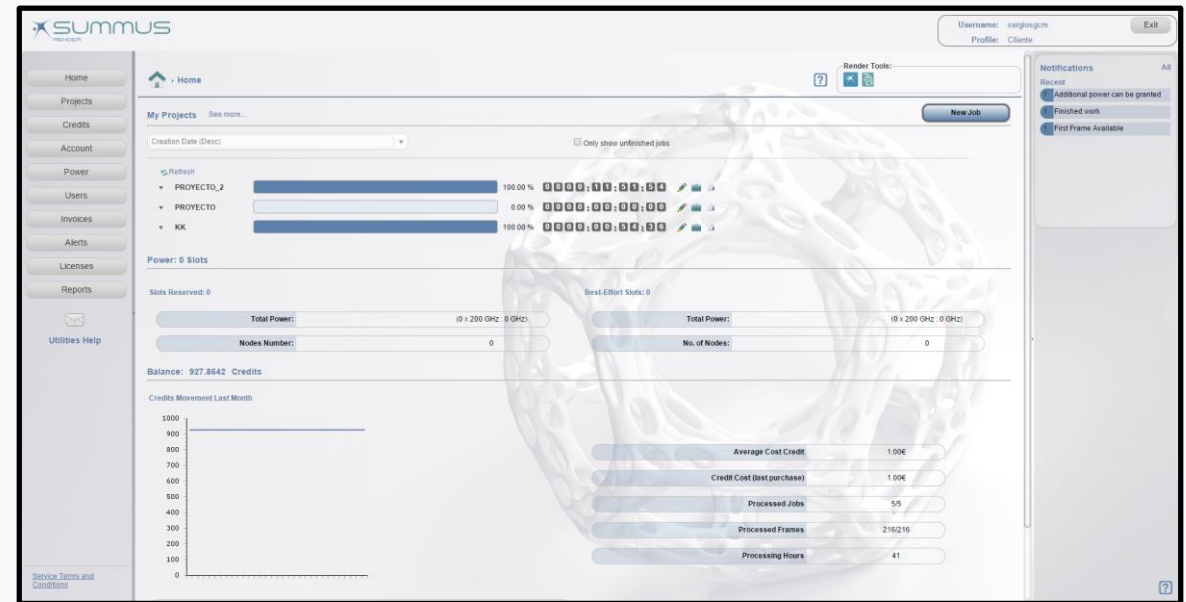

SUMMUS APP

✦ **CUSTOMIZABLE PLATFORM:** Model the platform's Look & Feel after your school's colors and theme.

✦ **ACCOUNT MANAGEMENT:** Manage the account of each student based on the level of 3D rendering required for the academic year.

✦ **REPORTS:** Students can generate reports for each one of their projects.

✦ **FREE TEST:** Get in touch with us if you want to test the APP's functionality and assess the benefits of cloud-based 3D rendering.

IN ORDER TO LEARN MORE ABOUT THE SERVICE
